MONDAY EVENING, MARCH 12.

WHAT A HUNGRY FOX CAN DO. - Just after the last heavy fall of snow, a man in West Sparta, N. Y., while in his baroyard, feeding cattle, heard a noise among his geese, close by. He turned around and saw a fox take one of them by the neck, sling it over his back, and start across the fields with it toward the Hartman gully, a quarter of a mile away. The man chased with a pitchfork, but the snow was so deep that the fox gained on him. So he called his shepherd dog, and showed him the

The dog quickly caught up with the fox; but the fox dropped his goose, turned around, whipped the dog, and then took up the goose and trotted on again. The dog was induced to tackle the fox three or four times, and each time the result was the same; the goose was dropped, the dog whipped, and then a forward movement with the goose. The fox finally got safely into a gully with his goose, and probably never had a better opinion of himself than he had while he was satisfying his hunger on the choice meat that he had secured with so much risk and courage.

ENCOURAGE HOME MANUFACTURE
I am now manufacturing a good and cheap
PAINT, of several colors, the body of which is
equal to Lead and Oil, which for tin roofs,
barns, stables, fences, &c., will be found very
suitable as well as economical, and an improvement over other cheap mixed Paints now in the
market. For brick walls with a nexthern exmarket. For brick walls with a northern exposure it will act as a proventive to dampness. For iron it makes a solid and lasting coating, impervious to moisure and a preventive of rust. Being of various shades of color, the cornice and trimmings can be painted to suit. This Paint has been used by one railroad company and by many of the farmers in this vicinity, and is highly recommended by all who have tried it.
